# RITCHIE'S SCHOOL REGISTERS

Adapted to the Requirements of the Code of Regulations for Scotland.

---

## REGISTER

OF

## ADMISSION, PROGRESS, AND WITHDRAWAL.

---

*School.*

The Admission Register should be kept exclusively by the Head Teacher, and made up at least once a-week. Successive numbers should be allotted to the Children on their admission, so that each child may have its own number, which it should retain throughout its school career. A child who returns to school after an absence of any duration, would resume its original admission number.—*Circular of Education Department, No. 65, July 1873.*

No child's name should be kept to the Admission Register after a fortnight's continuous absence, without enquiry from the parents whether the child has been withdrawn. The names of children withdrawn (*whether they are so, the answer of their parents will decide*) should be cancelled at once in the Register, and not included in the Returns of *age* and *stay at school*, but the attendance (if any) opposite to such names in the Class Registers, must be counted under Rule 10 of Supplementary Rules of Scotch Code, and the whole number of such names must be counted in the Return "*left in past year.*"—*Rule 12 of Supplementary Rules of Scotch Code (1873).*

To entitle to Government Grants, it is necessary to fill in particulars under all the columns of this Register. Admission Registers should never be destroyed.—*Circular of Education Department, No. 65, July 1873.*

## The Register.

This is not what it purports to be - a register of admission, progress and withdrawal - but a copy of the names which were presumably entered elsewhere in working registers. It is useful as a list of names and addresses of both child and parent and, usually, of the child's date of birth, though even this is often no more than the month and year. It is useful, too, in giving the names of the schools from which pupils came. e.g. Bell's School Lurgan, St Salvador's School Dundee, Wilson's School, St Andrews, Miss Provier's School, St Andrews. The date of leaving is hardly ever given and the "Remarks" column is very empty, making the few entries memorable. Poor Helen Murray is forever branded as "Remarkably stupid" and Willie Adie as "a bad boy".

The first 403 entries appear to be the names of all who were in school when the record begins. Few dates of admission are given and when they are given they do not <sup>appear</sup> in any order, chronological or alphabetic. e.g. William Trotter who was admitted in 1872 is listed before Maggie Creighton who was admitted in 1865. Even afterwards the order of listing names is puzzling. e.g. a page chosen at random lists pupils as entering school in this order: 11/65; 9/67; 1/71; 1/72; 9/70; 11/72; 12/67 and so on.

After 1889 ~~is~~ <sup>it becomes</sup> an admission list for the Burgh School, including the names of 154 pupils from the Madras College who were transferred there when the reforms in the Madras College were made. The earlier names are almost certainly those of pupils in what was later known as the West Infants School, which became part of the Burgh School.

when the School Board was set up. (Parents addresses make it plain that it was not the Fisher school.)

The puzzle remains. Why was it compiled? Why index it so carefully? To what use was it put to cause its back to crack so badly?
